

PRESENTATION

Як ти?
HOW ARE YOU?

A FILM BY STANISLAV KONOPLOV

- TYPE : SHORT FILM

- DURATION : 20 MIN

- GENRE : DRAMA, EXPERIMENTAL, POETIC

How Are You?
ЯК ТИ?

IDEA

The idea is to show the inside world of every Ukrainian fighting, first of all inside themselves, trying to save their psychological health to be ready to help each other; about a small unprotected inner Child living in every grown up adult; about hidden love, care and friendship.

CONCEPT

To show the story from the view of narrow length, as it is going on very near to the viewer. The shooting should be done in the black, dark space for making the feeling of the small space around (inside world). The light will differ from one space to another, depending on the mood of the scene, but still it would be more shadows to show that every character is trying to hide their real feelings.
